

## **Incentive scheme for faculty members for publishing research work in peer reviewed international journals for 2015**

Papers which are 'published' or 'in print' or which 'appeared online' are eligible. Papers communicated or accepted will not be eligible. All the papers published in the same calendar year will be considered for determining the total incentive amount. Maximum of three authors will be considered. Each of the co-authors (limited to three) will be entitled to 25% of the incentive amount.

If the principal author is from outside, the paper will not qualify for the incentive.
