

Research Incentives for Students

Presentation of research work in conferences and seminars is a very important aspect of carrying out research project. It gives us an opportunity for receiving recognition, comments and suggestions from the peers and specialists on the quality of the research work carried out.

In order to encourage research work and research culture among the undergraduate and postgraduate students in SAINTIGITS College of Engineering, it is proposed to provide financial support to selected students for making presentations in national conferences and international conferences held in India. The entire registration fee will be reimbursed by the college subject to the following conditions.

1. The research work should have been carried out in SAINTIGITS College of Engineering.
2. Guides from the department should be co-authors of the paper.
3. Conference/ seminar organized by government organizations or sponsored by important professional bodies only are eligible.
4. The student shall make the presentation of the paper in the department about a week before the conference date(s) and the feedbacks received shall be incorporated in the final presentation.
5. Copy of the abstract/manuscript, programme sheet, participation certificate and a photograph of the student making the presentation shall be submitted for claiming the registration fee
6. Maximum amount of registration fee that will be reimbursed by the college is Rs. 3000.
7. The committee that has been appointed by the college will examine the request and make recommendation for reimbursing the registration fee.
